Characters: Persona

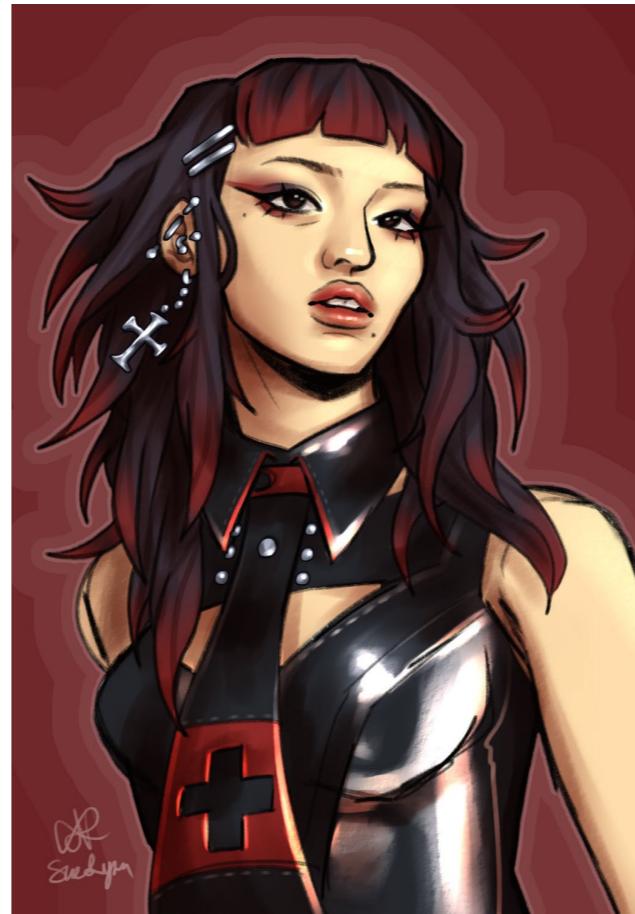

Development and art of my vampire persona. She is inspired by classic MapleStory and designed around all my favourite character tropes; collared shirts, pointed ears, and thigh highs.

'LOVESTRUCK!!!' 08.22

Characters: Feyn

Concepts and sketches made of Feyn, an original character I made for a 3D Character Animation unit.

Feyn is a magic student, a bright and happy-go-lucky elf. He is clumsy and scrappy, covered in bandages and scars from past adventures.

I focused on shapes and simplicity to transfer him easily over to 3D.

Silhouette Focused

A big collection of silhouette and shape focused illustrations and fanart over the past 4 years.
